

Welcome to Madrid

Every year in June, Arganda del Rey (a town located 35 kilometres from Madrid) becomes the capital of electronic music. *A Summer Story* festival will celebrate its seventh anniversary on 23 and 24 June 2023, welcoming some of the genre's greatest artists and DJs.

The idea behind *A Summer Story* is to bring electronic music lovers together in one space. The event takes place at the **Ciudad del Rock de Arganda del Rey**, a festival space that has previously hosted other major events such as Rock In Rio and which has excellent transport links to Madrid with special shuttle buses running on festival days. *A Summer Story* also offers a camping area for guests to enjoy the music experience to the fullest.
