

# Welcome to Madrid

**This golf school has the largest and most well-equipped driving range in Spain and is the first course to use artificial light, which means you can practice and learn to play golf even once the sun has gone down.**

During the daytime, the northern orientation ensures the sun doesn't blind you on the course as you contemplate amazing vistas of the Guadarrama Mountain Range. The club also has qualified and experienced teachers for beginners who use technology and an effective educational system to teach you how to play this sport.
