

Welcome to Madrid

The Harlem Globetrotters, considered to be the magicians of basketball, are coming back to Spain on their super *Harlem Globetrotters 2023 World Tour*. The legendary acrobatic team will offer a great sporting show at the WiZink Center (15 May 2023), where there will be no limits and everything will be possible.

The American basketball team combines basketball matches with ball shows and exhibitions. Since its creation at the end of the 1920s, it has played more than 20,000 matches in 120 different countries. Its ranks have included players of the likes of Wilt Chamberlain, highest scorer in an NBA match, with 100 points.

The team will also bring back its popular **Magic Pass**, which will allow fans to come onto the court, meet their favourite players and even learn to spin a ball on their finger like the stars of the team.

More than 50,000 people enjoyed the tour in 2022, amongst a great deal of laughter, humour, adrenalin, absurdities and entertainment for all the family. Impossible dunks, amazing dribbling, spectacular throws, acrobatics from another planet and, of course, good humour will be the stars of this show which attracts more than 50,000 people year after year.
