

# Welcome to Madrid

On 30 April, IFEMA MADRID is hosting one of the most important festivals around, which is visiting Spain for the second time. A daytime festival that can accommodate up to 30,000 spectators, and which will have four stages for 40 DJs to perform. The organisers hope it will become one of the best electronic music festivals in Spain.

The biggest and most spectacular elrow festival is coming to Madrid for the first time, promising to be the most fun party ever, where enjoyment is assured. *Elrow Town Madrid* offers the best of the elrow universe in XXL format with great sunsets and a line-up of artists who will unleash their talent in a variety of creative settings accompanied by extravagant themes and performances including theatre and art.

A festival that will feature the performances of more than 40 DJs including a number of world-class artists as headliners and focusing on house, techno, and disco.

elrow is a brand known for its large-scale, elaborate, immersive productions. It first emerged as a club in Barcelona and went on to become one of the world's biggest events, travelling to places such as Las Vegas, New York, and London.
