

Welcome to Madrid

The Air Traffic Control Association (ATCA) and Kenes Group will be presenting an event on 25 September 2023 in Madrid, focusing on the integration of airspace, as part of the Expodonica fair. The meeting will be held at IFEMA MADRID, discussing topics related to advanced air mobility, urban air mobility, spatial integration, and civil and military cooperation.

ATCA has organised 67 annual events and established World ATM Inc. in 2013 to expand ATCA's brand and initiatives worldwide. Since 2013, ATCA and World ATM Inc. have held nine innovative events in Madrid. ATCA and Kenes Group have joined forces to ensure that the exchange of knowledge and services on the air space transport of goods and persons is discussed.

As an independent non-profit organisation, ATCA is dedicated to the following objectives:

- Promote, maintain, and improve the stature and well-being of the Air Traffic Control profession and the aviation community.
- Develop and disseminate knowledge on air traffic control in all its phases and applications.
- Promote intelligent and honourable cooperation between all persons, parties, and bodies concerned and involved with the promotion and advancement of aviation and, in particular, the field of air traffic control.
