

# Welcome to Madrid

**Members of this association have degrees in history, humanities, art and performing arts and/or are tourist guides and they wish to promote a different point of view of Madrid, its rich culture and history organizing special tours for small groups.**

Its proposals include various routes, such as Republican Madrid, Almodovar's Madrid, Hidden Madrid or Galdos' Madrid, in which a cultural focus is applied, some of which are linked to the present day. It also offers visits to the city's major museums and dramatised routes.

Groups of 10 to 20 people.
