

# Welcome to Madrid

**Aularte is a cultural initiative which aims to increase awareness of the history of art, culture and heritage, all of which are provided by graduates in History of Art.**

It is a space open to those who are looking for training, information and exchange. At Aularte you'll find courses on the history of art, seminars, guided tours to exhibitions and museums and art tours.

Furthermore, Espacio Aularte has two spaces for combined or independent use for rental, which allows for adaptation to multiple uses and diverse activities.
