

Welcome to Madrid

This theatre is located in what used to be the Triángulo alternative hall. It is a non-profit entity which aims to use the citizen movement that is building another way of life with the participation of citizens who wish to become members.

It is a project that came about with the vocation of becoming a permanent platform that uses theatre, poetry, dance, workshops and the Universidad del Barrio, providing a space for social movements and public initiatives that defend human rights to be voiced.

The theatre's programme is marked by political and musical humour and encompasses proposals it receives from companies and artists, projects it promotes directly, and its own in-house productions.

It also has a performance school that organises, coordinates and provides the teaching that leads to practical training in stage arts for students over the age of 16 of all nationalities and social status. It offers a regular course from October to June and intensive workshops.
