

Welcome to Madrid

Spacious pavilion that holds up to 1,700 people for sporting events and shows, with a total floor space of 2,104 m² for trade shows and exhibitions. As a multipurpose space, it can be set up with grandstand seating, stages, or any special arrangements. There is an outdoor space for parking and to set up auxiliary equipment.

The venue has been built to provide a perfectly hermetically sealed space, which insulates it from outside noise and prevents noise from being heard outside. Multipurpose Pavilion II is attached to Multipurpose Pavilion Madrid Arena, so it can be used as an auxiliary space for events held there, making the two pavilions an ideal venue for trade shows and exhibitions, restaurants areas, entertainment, or shows, etc.

The pavilion can also be used as a film or TV set, or for performances that require a black-out. It has large bays for loading and unloading, lorry access, and an outside area to park lorries and to set up mobile units. In general, its facilities are ideal for setting up and holding any event.
