

Welcome to Madrid

This cultural space is located in the heart of Madrid, in the Barrio de La Latina. Its three strengths are: the family-children's programme, including some of the city's best positioned children's shows; the programme for adults , made up of comedies, dramas, classical adaptations, oral narration, etc...; and the FIET, a platform to support theatre training, research and experimentation, as well as a meeting point for those who need a programme with different productions.

The venue covers an area of 320 square metres divided between three different areas: the main floor, where the bar is located; the upper cellar, where there is a theatre that can seat up to 68 people, and where courses, presentations, conferences, congresses, etc can also be held; and the cellar, a former 17th century coal cellar, which combines all the charm of the past with the comforts of high tech facilities. With brick walls and a vaulted ceiling, it can accommodate up to 81 spectators.
