

Welcome to Madrid

Since Bernardino Moreno opened his first shop on Bravo Murillo in 1931, the business has multiplied by seven, which is the number of stores they now have in the capital. Since then, they have received many awards, one of them being Madrid Excelente.

They offer everything from cakes and pastries to gourmet products as well as canapés and savoury treats, prepared dishes, French and haute charcuterie, chocolates, sweets and wines, all of it featuring an original design which makes them ideal for catering or designers' tapas.

Part of the prestigious French association Relais Desert since 1995, they aim to look for quality in all the stages or preparation of the product, which are noteworthy for the variety of aromas, flavours and textures. Aside from their stores, they offer a catering service and have several restaurants.
