

Welcome to Madrid

This tablao (bar/restaurant with live flamenco music) is located in the area of Acacias. It is a key venue for fans of flamenco, and all those wishing to find out more about this art form, considered a universal form of cultural heritage.

With simple stylish decor, Café Ziryab is designed to focus your attention on the live show, hosting original and innovative flamenco acts, as well as more traditional flamenco performances, in addition to music and singing recitals. It also hosts roundtable discussions and gatherings of fans as part of the activities organised by its flamenco association.

To complete your evening, Café Ziryab offers you the option of having something to eat and drink while you enjoy the show. Its menu includes platters of cured ham, salmorejo (thick chilled tomato soup), salted tuna, cheese boards..., etc.

There is also the possibility of attending flamenco classes and a didactic show (available in Spanish and English, other languages on request) in which you can talk to the artists to learn more about this art form.
