

# Welcome to Madrid

**This stage venue aims to develop and host proposals from different contemporary artistic genres, from theatre, dance and music to exhibitions, debates or installations. This space also offers training courses in dramatic art.**

With a hall fitted out for theatre performances and concerts and a capacity for up to 70 people, El Umbral de Primavera has a luminous bar where you can visit an exhibition, listen to music or read a book as well as having a coffee or trying one of its cakes, all of which can be found in a neighbourhood that is an avant-garde centre for artistic proposals and joint initiatives.
