

Welcome to Madrid

Located in a central neighbourhood in Madrid and opened in 1875, the Mercado de la Cebada market hall covers a large area with many stalls whose kind vendors offer a wide range of top-quality products.

The current market (built in 1958 and refurbished in 2013) has two floors with a surface area of more than 6,000 square metres for commercial use, which houses around 80 stalls, offering food (meat, cold meats, fruit, fish, chicken) but also cosmetics, flowers, eyeglasses, upholstery... In sum, everything you may need...

Inside the market we can find the Cebada Space, 120?m2 fully fitted out with ventilation, air conditioning and cafeteria, where all kinds of events and shoots can be held.

The market has a car-park and several of its stalls offer a home delivery service.
