

Welcome to Madrid

Windobona Indoor Skydiving is a wind tunnel for free falling that offers the general public and professional parachutists the possibility of flying in a glass flight chamber that recreates the effect of free falling.

Located in the area of Carabanchel, this vertical wind tunnel is completely safe and offers turbulence free winds up to a maximum speed of 280 km/h. Inside, the flyer, always accompanied by an instructor, floats on a cushion of air and feels pure adrenalin and fun but without vertigo or fear. The experience can be enjoyed by anyone over the age of 4 without the need for prior training. WINDOBONA offers customers a wide variety of flight packs to fly alone, with a partner, or with a group of friends, relatives, or colleagues.

The premises are modern, secure and reliable, with the most cutting-edge technology available in the world, supplied by ISG, a leading German firm in the development of this type of tunnel. Furthermore, WINDOBONA serves a variety of aperitifs and snacks in its bar with views of the tunnel, and also organises different types of events throughout the year.

WINDOBONA is the first and only wind tunnel in Madrid, and enjoys an exceptional location, by the popular Centro Comercial Islazul shopping mall, which can be reached by car (exits 27 and 28 on the M-40) and by public transport (bus and metro).
