

Welcome to Madrid

Right by the popular Plaza del Dos de Mayo, this children's clothing and accessories shop has partnered up with the French firm Familib, which rents out pushchairs, cots, and other baby equipment for those staying in the city for a short time.

Alva for kids offers original clothing and practical and fun accessories for children, from newborns up to 12 years of age. It works with leading international brands, ensuring the materials used are good quality and that the manufacturing process is ethical and environmentally friendly. The shop also specialises in ergonomic baby carriers.

They are also partners in the Familib company, which rents out equipment to transport and care for babies. Equipment can be hired in the store itself or on the website www.rent-stroller.com. Products must be handed back to the store at the end of the rental period.
