

Welcome to Madrid

Having first opened in 1998, this shopping mall is close to the Madrid Assembly and offers a wide variety of fashion stores, recreational and leisure options, and several restaurants.

The centre is divided into three shopping floors and two underground levels of free parking, for over 1240 vehicles. As well as shops and restaurants, the centre also has toy library for the little ones, a library, a car wash, free Wi-Fi and adapted facilities for people with reduced mobility. There are also special bathrooms for families and children.
