

# Welcome to Madrid

**This exclusive tourist experience enables the most daring travellers to discover the treasures hidden in the city of Madrid and its surrounding area, such as Toledo, Segovia or El Escorial, whilst driving a motoring gem, the Ford Mustang.**

Mustang Road has six convertible vehicles with more than 300 hp. The service includes an official guide who, in addition to showing the route, will accompany clients during private visits to the historic monuments. The icing on the cake is an haute cuisine culinary experience at the best restaurants in each destination.

They also organise private and exclusive experiences adapted to the needs of companies and special groups.
