

Welcome to Madrid

The most outstanding flavours of Asturias are found in this spacious restaurant in Calle Serrano, which revives the spirit of eating houses, combining modernity and tradition and where great care is taken over the ingredients and their flavours.

The establishment, decorated in an elegant and modern style, is divided into diverse spaces: a bar area in which there are high and low tables to savour a more informal menu, perfect for snacks or portions; the dining room and a semi-covered terrace that can be turned into a VIP area for 15 people.

The menu is rounded off with a wide selection of wines from diverse designations of origin, not forgetting the cider.
