

# Welcome to Madrid

Next opening: June 23

---

**This water park opened in 2014 next to the Parque Warner amusement park, has a 1950s California theme and features numerous water attractions for both adults and children, and a natural sandy beach where the characters from Loony Toons, Flintstones, Scooby Doo, and Superman and Wonder Woman superheroes provide even more fun.**

The water attractions are divided between intense, moderate and soft, so you can chose the ones that best suit your taste, from the most daring ones to those designed especially for families with small children.

The water park includes several food courts, a shop that sells Loony Tunes beach merchandise and a parking area and an entrance separate from Parque Warner.

## **HOW TO GET THERE:**

Located at a 20-minute drive from Madrid, Parque Warner Beach is accessible by car, taking the 22 exit off A-4 towards San Martín de la Vega or using public transportation. If this is your choice, there are several options:

- Train + Bus: Cercanías line C-3 stopping at Pinto. From there you can take the bus 412 or 413 that takes you directly to the park
- Underground + Bus: From Metro station Vilaverde Bajo, yellow line 3, you can take the bus 412.
- Bus station Méndez Álvaro: you can take another bus that takes you directly to the park. You can buy the combined ticket for the park and transportation, or just the transportation.

For more information, check official website.
