

Welcome to Madrid

This concert hall, located close to the Paseo de la Castellana, has an extensive programme of all types of live music performances each day, in which quality is the common denominator.

The establishment, in which every detail is taken into account, has an extensive bar with stools and a long wooden bench as a seating area. At the rear, there is a small stage where you can enjoy a national pop-rock concert, a tribute to The Beatles, as well as Jam Sessions, Jazz or indie music.

From midnight at weekends, the establishment is turned into a club after the concert, where you can have a drink and dance to the rhythm of the latest hits and classics.

Furthermore, Rockville offers its space for all types of cultural activities, such as exhibitions, book presentations, events or recitals.
