

Welcome to Madrid

Located in the Santa María de la Cabeza roundabout, in the premises previously occupied by a bank, you will find this cinema with an original subtitled version in whose theatres you will be able to see everything from the great Hollywood hits to the best independent, European, Asian, festival and, of course, Spanish films.

The cinema has three screens - the main one has 100 seats and the other two have 50 seats - plus a lobby area with a bar. The cinema also hires out its screens to audiovisual companies for press viewings, presentations, festivals, premieres, private and corporate events as well as courses and conferences.
