

# Welcome to Madrid

The city of Madrid becomes the European centre of dance thanks to this veteran festival which, as usual, presents the public with the latest in international, national and local dance through a programme that breaks with convention. The 38th edition will take place from 13 May to 11 June 2023, with performances in alternative venues, private theatres and other spaces in the city and in 16 municipalities in the region.

Every year, *Madrid en Danza* manages to mix the new and the consolidated, through a programme that includes important figures from the world of dance and emerging promises. Although the festival's main objective is to showcase the new aesthetics and themes of national dance, it also has an international section that focuses on several areas in each edition.

## Practical Information
